EXPERIENCE

Senior UX Designer | McGraw Hill Jan 2022 - Nov 2025
B2B2C EdTech Design systems Web Mobile Remote

- Conducted 40+ usability sessions across 3 user types, translating findings into direct product decisions, including a scroll interaction redesign that restored task completion for grade K-4.
- Redesigned the teacher reporting dashboard, introducing threshold-based intervention alerts that surfaced actionable student groupings on entry, reducing task time by 75%.
- Increased student engagement by 68% through gamification design on SRA Reading Labs, a platform serving 1.5M+ students.
- Built a custom multi-level design system of 40+ interactive widgets, reducing production time by 25%, eliminating cross-team inconsistency, and enabling content authors to independently build 800+ learning templates across 8 products.
- Reduced UX review cycles by 67%, by delivering high-fidelity Figma documentation and prototypes precise enough for engineers to build from directly, eliminating guesswork pre-development.
- Integrated AI tools (Lovable, Claude Code, Granola) into the design workflow, recovering 10% of sprint capacity and accelerating time from brief to testable concept.

Lead UX Designer | Powder Labs Nov 2021 - Jun 2022
B2B SaaS HealthTech Mobile Remote

- Led design of workflows, permissions, and interfaces for 3 user roles across onboarding, appointment scheduling, digital consent, payment processing, and treatment charting, delivered autonomously from discovery to hand-off.
- Designed a mobile-first before/after photo documentation system for clinicians, built around real-world constraints including time pressure in active care settings.
- Hired, onboarded, and mentored a UI designer, establishing a two-person design function that accelerated delivery pace across the platform.

SKILLS

Design
Figma (Advanced) Accessibility/WCAG Responsiveness
Design systems User flow mapping Redline specs
End-to-end product design Rapid iteration Prototyping
Wireframing

Research
Usability testing A/B Testing KPI synthesis
Qualitative research Competitor and market analysis
Journey mapping

AI/Vibe-coding
Claude Code Lovable VO GitHub Vercel
Granola Google Anti-Gravity Bolt.io ChatGPT

Languages
English (Native) Spanish (Native)
German (B1 - Enrolled in intensive course)

PROFESSIONAL DEVELOPMENT
